

## Capabilities

GameDocs provides all video game packaging materials including online “packaging” for digitally distributed products; manual writing and layout; game writing; collateral; B-to-B materials; localizations including translation and layout; and web design and programming.

Our services make it possible for clients to utilize a one-stop shop for all packaging, manuals, printed collateral and online advertising. We write, edit, design, layout, program, localize and print all game industry materials.

## Some of Our Recent Work
